SCHOOL CHILDREN OF DAVENPORT TO ATTEND CONCERTS

Mrs. Frank Gates Allen of Moline yesterday received a check for \$250 to be used for purchasing Tri-City Symphony orchestra tickets to be distributed to the school children of Davenport. The gift came from Joseph L. Hecht of Davenport, and is the first such received from a Davenport manufacturer. Last year

Moline manufacturers donated a considerable sum of money for school children's tickets, which were greatly appreciated and they have subscribed even more for this year. Music supervisors in the schools state that no end of good done through educating the children to appreciate music, and especially music of the orchestra. The tickets are distributed as recognitions of merit to children who keep their music work up to a certain standard.

In speaking of the gift from Davenport, Mrs. Allen said this morning: "Allowing the children to enjoy real music has meant more than one can possibly imagine. We are anxious to offer the same opportunity to Rock Island and move Davenport children which proved so splendid for Moline kiddies last year, and will again be offered them this season. And the board would appreciate donations for children from parochial schools as well. We had hoped to plan some Saturday afternoon concerts for the children of the three cities this year, but the sale of tickets does not justify any such expenditure as this would necessitate."

Meier Inaugurates Cut

Price Policy For The

ELM STREET

MARKET

BEGINNING MONDAY,

NOVEMBER 8

Following the trend towards lowering consumer costs, the policy of strictly cash business will be maintained by the Elm Street Market on and after Monday, Nov. 8.

The delivery service of the meat market will be continued but all orders will be taken for delivery on a cash basis, and credit business will be entirely discontinued.

This is not to be considered in any manner of a rebuff for our credit customers because we have always received ready response in payment of bills but it is for the

Customer's Benefit

We can sell meats at a considerable lower cost on a cash basis. We realize it is the time to bring consumer costs down and with this in mind we know the

Elm Street Market Patron will be the Gainer

We have tried both cash and credit system and we know that the cash basis of doing business is beneficial both to our patrons and ourselves. In order to convince our customers of the greater savings in the new plan, we will offer on Monday a new price list for meats which will show beyond all doubt the benefit from the consumers' standpoint.
